Project details

Project name	South Hinksey, St Laurence Church
Short description of the project	In January 2009, Oxford Archaeology (OA) carried out an archaeological watching brief at the Church of St Laurence, South Hinksey, Oxfordshire (NGR: SP 509 039). The work was commissioned in advance of the construction of a new toilet block, storeroom and associated service trenches. The watching brief revealed deposits of earlier churchyard soil and three 19th-century inhumations. No evidence for any earlier phases of the church's construction was encountered.
